1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 4-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Sismondi et al. (6,387,473) for reasons of record and for reasons given below. Since the reference suggests the use of mixtures and specifically discloses materials with HLB above and below 10, the reference is considered to anticipate the claims.

2. The prior art submitted by applicants has been considered. The "x" references from the EPO Search Report are cumulative documents. It is noted that the document to Takahashi et al. appears to contain internal inconsistencies. It does not appear to intentionally disclose a mixture of surfactants with HLB values above and below 9.

3. Applicant's arguments filed August 4, 2005 have been fully considered but they are not persuasive. The teachings of Sismondi et al. are not limited to the examples. Contrary to applicants' arguments, there is no limitation in Sismondi et al. that each ink receiving layer include only one surfactant. In fact, Sismondi et al. disclose that the surfactants include individually listed surfactants "as well as mixtures thereof." This language is referring to surfactant for a single layer of the medium. Since the surfactants are disclosed and mixtures are disclosed, specific combinations of the disclosed surfactants are also disclosed by the reference.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pamela Schwartz whose telephone number is (571) 272-1528.
